

# Short Murray/Rowan Hill Closure

## Signage Overview

What follows is a presentation of options for temporary traffic control signage for the experimental Short Murray/Rowan Hill Closure.

# **Short Murray/Rowan Hill Closure**

## **Notes regarding this presentation:**

Pictures provided are for illustration purposes only and are not to scale. Sign posts or stands are not pictured. Specific mounting or installation methods will be determined moving forward.

Advance notice signs will be installed 3/7/2025. The temporary closure will be from approximately 3/28 through 4/28.

Barriers, cones, reflectors will be installed by the Village Service Department at each of the two road closures.

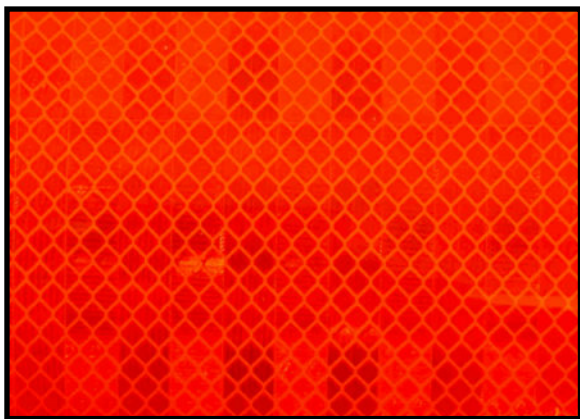

# **Short Murray/Rowan Hill Closure**

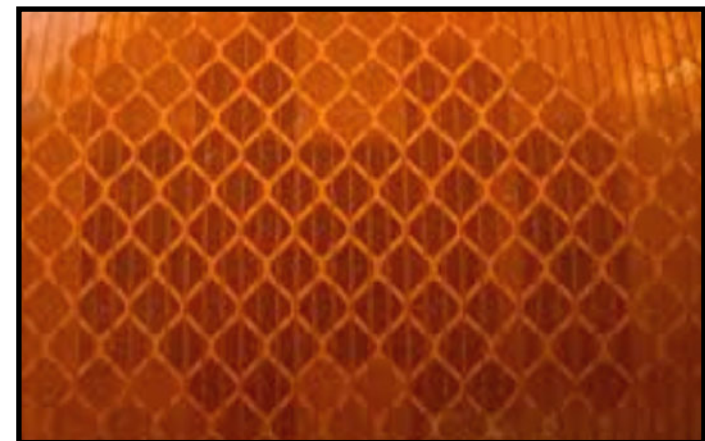

## **A note regarding sign background colors**

Why orange? The Manual of Uniform Traffic Control Devices (MUTCD) mandates that all signs used for temporary traffic control or those that are installed on a temporary basis shall have an orange background. Signs that will be installed permanently have different mandated colors.

## **What shade of orange? Fluorescent**

Fluorescent Orange: brighter, better daytime visibility.

Standard Orange: not as bright.
